Subject Line Options:

1. Payment friction is expensive
2. Your checkout is leaking
3. Get paid faster
4. Stop chasing payments
5. Clunky payments kill sales
6. Cash flow hates friction

Email:

Your payment system might be quietly stealing money.

Every failed transaction, delayed payment, and clunky checkout adds friction between your customer and your cash.

That is expensive.

Our payment solution helps small businesses accept payments faster, track transactions more cleanly, and remove the mess from getting paid.

You are probably not losing sales because people do not want to buy. You are losing them because paying you feels harder than it should.

One business owner switched to a cleaner payment flow and finally stopped chasing payments like a full-time job.

Try it for 30 days. If you are not satisfied, you get a full refund.

Start accepting payments faster today.

Keep cash moving,
