

100 TEMPLATES

1. The Hook

Most families are one bad phone call away from realizing they waited too long to protect the people they love.

2. Credibility & Authority

We help young families cut through confusing insurance options, avoid oversized middleman fees, and get clear guidance before they commit to anything.

3. The Big Promise

Within 24 hours, you can have a personalized life insurance plan built around your family, your budget, and the future you want protected.

4. The Origin Story

This was created because too many families were being pushed into generic policies they barely understood, so we built a simpler way to see what you need, what it costs, and what is actually included.

5. The Threat (Urgency)

Waiting does not make coverage cheaper, clearer, or easier. It only leaves your family exposed for another day.

6. Wider Context

This is bigger than insurance. This is about knowing your spouse, your kids, your home, and your future are not depending on hope if something unexpected happens.

7. The Pain

Without the right plan, families stay stuck guessing, overpaying, comparing confusing policies, and wondering if they are actually protected.

8. Proof of Concept (Testimonials)

One family said, “We finally understood our options, knew exactly what we were getting, and had our protection plan in place the next day.” Click now and get your personalized Family Protection Plan.
